PROFESSIONAL SUMMARY

Results-driven SAP Full Stack Developer with 5 years of experience specialising in ABAP on HANA, OOABAP, SAP UI5, OData, CDS Views, RAP, and enterprise application development. Experienced in building scalable end-to-end SAP solutions ranging from backend business logic and integrations to responsive SAP Fiori/UI5 applications and operational dashboards. Strong focus on performance optimisation, reusable architecture, debugging, and modern SAP development practices.

TECHNICAL SKILLS

- ABAP, OOABAP, ABAP on HANA, CDS Views, RAP, OData V2/V4, SAP UI5, SAP Fiori
- Reports, Function Modules, RFCs, SmartForms, AIF Interfaces, BOPF, EML, SAP Gateway
- Enhancements (BAdIs/User Exits/Implicit Enhancements), Performance Optimisation, Debugging
- TDD / ABAP Unit Testing, REST APIs, Enterprise Application Development

TOOLS

- Business Application Studio, SAP HANA Studio, Eclipse ADT, VS Code, Git/GitHub, Postman, Claude

PROFESSIONAL EXPERIENCE

Senior Developer | IBM India Pvt. Ltd.

SAP ABAP, ABAP ON HANA & SAP UI5 Developer

October 2024 – Present

Client: Mercedes-Benz Research & Development India (MBRDI)

Bengaluru, India

- Developed a real-time SAP UI5 operational dashboard for SPM (Spare Parts Management) Asia & China business operations.
- Worked across multiple SAP modules including CRM, TM (Transportation Management), and EWM (Extended Warehouse Management) for integrated operational monitoring.
- Built interactive KPI tiles, VizFrame charts, and plant-wise performance visualisations for Pick, Loading, and PGI processes.
- Integrated ECC backend data through OData services and implemented dynamic frontend data handling for real-time business insights.
- Designed business-friendly dashboards for operational stakeholders to monitor warehouse performance and logistics activities across multiple distribution centres.
- Implemented auto-refresh functionality, responsive UI layouts, and optimised frontend-backend communication for seamless user experience.
- Collaborated directly with business teams and stakeholders for requirement gathering, UI improvements, and operational enhancements.

Developer | Tata Consultancy Services (TCS)

SAP S/4HANA, ABAP on HANA & SAP UI5 Developer

May 2021 – October 2024

Client: SAP Labs India & Germany

Bengaluru, India

- Successfully collaborated on implementation and enhancement projects including SAP GDPR, SAP DVS, and SAP PEO.
- Designed and developed custom ABAP on HANA programs, reports, and reusable OOABAP solutions using classes, methods, and interfaces.
- Developed and optimised SAP UI5 applications integrated with OData services for seamless frontend-backend communication.
- Designed CDS Views for analytical and transactional data modelling, enabling efficient reporting and real-time business insights.
- Worked on RAP-based applications involving actions, validations, determinations, Behaviour Definitions, and EML operations.
- Implemented enhancements, BOPF developments, backend business logic, and value help views for enterprise applications.
- Contributed to SAP UI5 frontend modifications, debugging, and performance optimisation across business-critical applications.
- Conducted ABAP Unit Testing and followed Test-Driven Development (TDD) practices for scalable and maintainable developments.
- Collaborated with functional consultants and business stakeholders for requirement gathering, defect fixing, and enhancement delivery in agile environments.

KEY PROJECTS

MBPTS Digital Cockpit / SPM Asia & China Dashboard

- Worked on end-to-end SAP Full Stack development for SPM (Spare Parts Management) Asia & China business operations across multiple SAP modules including CRM, TM (Transportation Management), and EWM (Extended Warehouse Management).
- Developed SAP UI5 dashboards and frontend applications integrated with ECC backend systems through OData services.
- Designed and implemented backend ABAP logic, reports, RFC integrations, CDS-based data handling, and OData service consumption for real-time operational monitoring.
- Built interactive KPI tiles, plant-wise visualisations, and operational dashboards for monitoring Pick, Loading, PGI, and warehouse activities across distribution centres.
- Worked on frontend-backend integration, data processing, debugging, performance optimisation, and enhancement implementation across SAP applications.
- Implemented responsive UI5 layouts, auto-refresh functionality, and business-driven visualisation components for operational stakeholders.

SAP PEO Enhancements

- Worked on enterprise manufacturing process enhancements within SAP PEO using ABAP on HANA, OOABAP, CDS Views, and SAP UI5.
- Developed reusable backend enhancements, custom business logic, and modular OOABAP developments for production-related applications.
- Designed CDS-based data models and value help views to support efficient reporting and transactional processing.
- Implemented SAP UI5 frontend changes and backend integrations for improved usability and process efficiency.
- Contributed to debugging, performance optimisation, defect resolution, and ABAP Unit Testing across business-critical applications.
- Collaborated with functional and technical teams to analyse requirements and deliver scalable SAP solutions.

SAP DVS Project

- Contributed to SAP DVS developments involving RAP concepts, CDS Views, and OData based application architecture.
- Developed backend logic and enhancements using ABAP on HANA and OOABAP principles.
- Worked on transactional and analytical CDS Views for optimised data retrieval and application performance.
- Assisted in implementing RAP-based functionalities including validations, determinations, and business logic handling.
- Participated in debugging, testing, and enhancement activities for enterprise SAP applications.

SAP GDPR Project

- Worked on SAP GDPR-related enhancements and backend developments for data privacy and compliance processes.
- Developed ABAP reports, reusable programs, and custom logic to support regulatory and business requirements.
- Assisted in data handling, validations, and process optimisation activities within SAP applications.
- Participated in defect fixing, debugging, and support activities across enterprise SAP environments.

EDUCATION

B.Tech – College of Engineering and Technology, Bhubaneswar

2017- 2021

CGPA: 9.26

ACHIEVEMENTS

- Awarded “Rockstar of the Month” at Mercedes-Benz Tech India for exceptional performance, dedication, and contribution to SAP Parts Logistics & Data Analytics initiatives.
- Received multiple client appreciations for successfully and independently delivering solutions under tight deadlines and recognised for strong ownership, quick learning ability.

HOBBIES/INTERESTS

- Badminton
- Pickleball
- Baking
